

WHAT IS A CHAPLAINCY SERVICE?

A Chaplaincy Service is provided by a Pastoral Care Worker (PCW) in a school community on behalf of the local combined Christian community to provide additional support as needed.

Pastoral Care Workers

- Provide pastoral care in a 'first response' capacity to critical incidents, refer to specialist support and to provide ongoing presence and followup
- Work closely and in partnership with leadership and other wellbeing staff in schools to provide pastoral care and practical support to students, families and staff as requested
- Are well positioned to work across the whole school to 'build a sense of' community, harmony and cohesion
- Are trained and equipped to provide their school with a unique dimension of social, emotional and spiritual support in line with the DECD wellbeing framework

Partnerships

Your local school and your local church work together to provide your Pastoral Care Worker.

CHAPLAINCY & WELLBEING

Chaplaincy Services promote student wellbeing, engaging young people in activities that are preventative and which support early intervention and referral of mental health issues.

PRINCIPALS ARE SAYING...

The benefits of the program are clear and include; increased attendance at school by identified students, social and emotional support, increased access to social skills programs and families feeling supported in time of crisis such as suicide, death and family separations.

Primary School Principal

A lot of student problems never eventuate because Trev has provided support and encouragement early on. The students always walk away from their time with Trev with more bounce in their step....It is hard to imagine our school without thinking of our Worker.
